

## Hybrid Tomato Processing Sq/Rd **PREMIUM 2000 F1**

Early sq/ rd, J2, high pigment.

Uno Rosso looking plant with very good cover.

65 - 70 g fruits, very deep red due to "High Pigment" gene.

Thick walls, good dicer.

Mid brix 5.0 - 5.2 and mid viscosity.

Rain tolerant - good performance in northern areas - high production potential.

Multipurpose hybrid, especially dicing.

Suitable for early and late transplant.

HR\* / IR\*: V, Fol 0-1, N, Pst, Aal.
