

Hybrid Mini Tomatoes Det. **STROMBOLINO F1**

Small red cherry type.

Early 115 days.

Very firm, thick walls for its size.

Extreme heavy producer.

Mechanical harvest possible with modified harvester.

Very uniform size, 15-18 gr average, ideal for whole fruits canning.

Healthy plant with very good cover.

High brix 7.0-7.5.

Exceptional deep red color thanks also to very high level of lycopene:
180-200 mg/kg.

HR* / IR*: V, Fol 0-1, N, Pst, TSWV.
